Women Shoes Made in USA

Sbicca is based in Southern California and the Sbicca of California Brand captures the essence of the California lifestyle. This uniquely hand-crafted footwear is made in our factory in Los Angeles using the finest materials. This 92 year old brand has a proven successful track record of producing high quality footwear that is proudly MADE IN THE USA!!

History of Sbicca Footwear

The Sbicca Brand was originally founded by the Sbicca family in their home in Philadelphia. The family began producing footwear in the USA in 1920 and moved their thriving business to California following World War II.

In the 1970's, Sbicca revolutionized the shoe business when they began producing their "Molded Unit Bottoms" out of polyurethane. This gave Sbicca the competitive advantage of producing footwear on a light weight, flexible bottom that is fashionable as well as comfortable.

In 2010, the Sbicca of California brand was purchased by another family owned business, Palos Verdes Footwear. This company is owned by the Lovely family and is the parent company of the Volatile, Very Volatile, Volatile Kids, Volatile Handbags, Grazie, and Encanto Footwear brands.
